2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

The staff at Valleydale Elementary School is dedicated to increasing student achievement by offering high-quality instruction through programs such as Sobrato Early Academic Language (SEAL) program, Professional Learning Communities (PLC), a dual language option, and quality interventions/enrichments. Our academic focus centers on creating an instructional environment where students have daily opportunities for collaboration, instruction supports, cognitive rigor, and engagement in academic discourse. To increase rigor in daily instruction, we provide opportunities for students to collaborate around complex tasks, texts, and problems and create higher-level questions throughout the curriculum and across content areas to ensure that all students have the opportunity to engage in critical thinking. Our instruction is centered on giving students opportunities to experience the Four Cs: collaboration, critical thinking, communication, and creativity. These experiences will help students be prepared for the demands of college and careers in the 21st century. In addition, we use a CCSS-aligned English Language Arts and Math curriculum and support students with differentiated instruction through a school-wide intervention block. English language learners receive both daily designated and integrated English Language Development instruction. From preschool through sixth grade, our students also have the option of learning Spanish while participating in all of these activities, with the goal of eventually earning the state seal of biliteracy through a Dual Language Immersion 90/10 model.

2022-23 School Overview

To create a positive learning environment, we have implemented Positive Behavior Interventions and Supports (PBIS). We encourage staff, students, and the community to follow three behavior expectations: show respect, solve problems, and make smart choices. We recognize and reward students for positive behavior choices and motivate them through incentive programs. Our staff recognizes the crucial role that self-esteem plays in the success of each child and partners with McKinley Center and other agencies to provide counseling services for students

We are committed to providing our students and parents with a quality instructional program. We are proud to offer:

- *Emphasis on a Common Core standards instructional program in English, Math, and Science
- *Focus on high expectations and achievement for ALL students
- *SEAL strategies used to assist students in developing language
- *A safe and clean campus that supports student learning
- *Wonderful library with thousands of titles including Common Core exemplar materials
- *Outstanding parent involvement through SSC, ELAC, and Coffee with the Principal
- *Professional Learning Communities
- *Quality staff development for our certificated and classified staff members
- *Think Together program

At Valleydale Elementary we create a community that fosters a safe, respectful, positive school environment that empowers student growth in academics, community involvement, and personal relationships.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

The District takes great care to ensure that all schools are clean, safe, and functional. To assess the condition of its facilities, it uses a facility survey instrument developed by the State of California and internal instruments aligned to the state tool. The results of this survey are available at the District's Maintenance Operations and Transportation office.

Valleydale Elementary School provides a safe and clean environment for students, staff, and volunteers. Built in 1956 and modernized in 2005, the school sits on 11.5 acres and has facilities spanning 499,805 square feet. These facilities include a multipurpose room, library, cafeteria, 22 permanent classrooms, three portable classrooms, an updated playground, and one computer/innovation lab. The school has ample classroom and playground space, as well as a staff resource room, to support teaching and learning.

The Azusa Unified School District maintains a scheduled maintenance program to ensure that the school grounds and facilities remain in excellent repair. If issues arise that require immediate attention, the district uses a work order process. Emergency repairs are given the highest priority, and repair requests are completed efficiently and in the order they are received. School leadership and the District's Maintenance Operations and Transportation Department are aware of areas identified as needing improvement on the facilities inspection report and are working together to address these issues.

During the day and in the evenings, two custodians ensure that classrooms, restrooms, and the campus grounds are kept clean and safe. The Azusa Unified School District also has a scheduled maintenance program to maintain classrooms and facilities to a degree of adequacy that provides a suitable learning environment.

To ensure student safety, Valleydale Elementary School has a closed campus policy, requiring all visitors to check in at the office for any school business and allowing only students onto the school grounds during the school day. A supervision schedule is in place to ensure that the school grounds are supervised before, during, and after school. Students are closely monitored and supervised by certificated and classified staff throughout the day.

In the 2022-2023 school year, Valleydale Elementary School will use local Measure K bond funds and state matching funds to install new air conditioning in all classrooms, repave all concrete areas, install a surveillance system, and add additional playground equipment. All of this work will be completed during the 2022-23 school year

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	21	N/A	37	N/A	47
Mathematics (grades 3-8 and 11)	N/A	13	N/A	23	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents and community members are very supportive of the educational program at Valleydale Elementary School. They participate in various events such as parent nights, workshops, Coffee with the Principal, School Site Council meetings, and English Language Advisory Committee meetings. They also attend Back to School Night, Open House, and parent-teacher conferences. One of the main responsibilities of the School Site Council is approving the "Single Plan for Student Achievement," which is developed using assessment data, research-based instructional strategies, and standards-based curriculum. Parents are involved in the planning, review, and improvement of programs through ongoing School Site Council meetings. As a Title I school, we also hold an annual meeting to inform parents about the Title I program and its requirements. We hold regular meetings to provide a forum for open dialogue between stakeholders about student achievement and other topics such as school performance, curriculum, assessments, and proficiency levels. We also offer parent workshops based on identified needs from school and district-wide surveys. This year, our workshops have covered topics such as learning disabilities, math at home, SEAL parent gallery walks, and information about the school system and school attendance.

In addition to participating in events and meetings, parents also volunteer in the classrooms and on field trips. Our PTO is active on campus and helps fundraise for field trips and other school activities. In addition we have a bilingual community liaison who also assists our families by facilitating connections to a myriad of community resources.

2021-22 Chronic Absenteeism by Student Group

C. Engagement

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

2022-23 School Safety Plan

Valleydale Elementary School places a high priority on the safety of its students and staff. The school has a disaster preparedness plan in place that includes measures to ensure student and staff safety during a disaster. Fire, lockdown, and disaster drills are conducted regularly throughout the school year, and the school also practices a full district-wide earthquake drill, including a complete evacuation of the school. Teachers, staff, and administrators are trained in lockdown procedures that can secure the entire campus in an emergency, and staff has also received professional development on how to respond to an imminent threat situation.

To further ensure safety, the school has a storage bin containing food, water, and other supplies for use during a disaster. All visitors must sign in at the front office, wear identification tags while on school grounds, and sign out upon departure. Teachers and administrators are on duty during recess and before school, and noon supervisors and administrators are on duty during lunch and after school.

Valleydale Elementary School has a Comprehensive School Safety Plan in place to ensure a safe and orderly learning environment. The plan was developed by the Safe School Committee in accordance with Senate Bill 187 of 1997 and includes monthly facility safety inspections, child abuse reporting procedures, teacher notification of dangerous pupils procedures, disaster response procedures, procedures for safe entering and exiting the school, a sexual harassment policy, suspension and expulsion policies, a dress code, and discipline policies. The school has also aligned its safety program with Positive Behaviors Interventions and Supports. The School Safety Committee and School Site Council review and update the plan annually, and it was last reviewed and approved on 11/08/22.

2021-22 Types of Services Funded

Azusa Unified School District receives funding from state and federal funding sources. Through the Local Control Funding Formula (LCFF) California provides base funding to support the achievement of all students and Supplemental and Concentration funds directed primarily toward English Learners, low-income, and foster youth. The District receives additional funding from federal categorical, special education, and support programs to support all students at all schools. In addition, the district receives some grant funding from state, federal, and other non-government sources. Types of services funded include:

- Standards-aligned instructional materials
- Professional development for certificated and classified staff
- Class Size Reduction
- Academic intervention and support (i.e. targeted Title I)
- Support for English Learners and their families
- College preparation programs
- Educational Technology Assistance
- ROC/P at high schools
- Career & Technical Education Pathways
- Special Education
- Home-to-School Transportation
- Health and nutrition programs

In addition to the District-supported supplemental programs, Valleydale provides targeted academic tutoring to identified students beyond the instructional day. Students have access to supplemental programs such as Accelerated Reader, iReady, istation, and Moby Max that increase academic achievement and narrow the achievement gap.

Professional Development

The District annually holds professional development days in which teachers are offered a broad-based variety of professional learning opportunities in curriculum and instructional practice in support of a continuous cycle of improvement. Professional learning opportunities include grade level and/or content-specific programming on full and partial days as well as after-school opportunities. Student achievement data continues to be the determining factor in the selection of professional learning topics. The primary areas of focus for professional learning in the last five years have been in the area of supporting teachers as it relates to math, and ELA/ELD, history-social science, and science curricula, content standards, frameworks, as well as the use of student data to improve instructional practice. Professional learning is developed and facilitated by District staff, Teachers on Special Assignment, as well as consultants and coaches who specialize in content-area pedagogy. Professional learning was structured in job-embedded workshops and professional learning communities which include collaborative lesson planning, lesson study, classroom observations and coaching support, and student work/data analysis. Professional learning for all teachers includes strategies and pedagogy to support all learners access rigorous, grade-level standards. All professional learning includes a special emphasis on supporting the development of English learners' development of academic language and literacy. Beginning in 2017 through 2022, all teachers participated in six days of systematic, district-wide professional learning with a focus on instructional strategies in support of our three student success drivers: academic discourse, collaborative practices, and cognitive rigor. Added focus this school year included addressing issues relating to diversity, equity and inclusion, grading practices, social-emotional learning, and effective professional learning community implementation.

Our Valleydale teachers have received extensive professional development to incorporate research-based teaching strategies into their classrooms. They participate in weekly Professional Learning Communities (PLCs) which focus on effective instructional strategies, including the best use of student data at least twice per month. PLC topics are determined through leadership team meetings and annual staff surveys that identify areas of interest and need. Statewide SBAC assessment data also helps guide the areas our educators must focus on in terms of staff development. During the PLC process, teachers regularly develop formative assessments and share work samples. Based on data analysis, they modify instruction to best support students. Teachers also have the opportunity to share best practices and reflect on their own instruction.

For the 2022-23 school year, Valleydale teachers are also receiving SEAL training. K-1 teachers are in their second year of professional development, while grades 2-3 are in their first year.

This table displays the number of school days dedicated to staff development and continuous improvement.
